INSTRUCTIONS ON HOW TO KEEP SCORE PER USATT

1. The winners score is either 11 (the most common score for winning a game), or two more than the loser at any point past 11. (The winners score is easily calculated, but not necessary, because when breaking ties it is how many points were scored AGAINST an opponent that matters, so keep counting after Deuce!.)

2. All that matters on this score sheet is how many points the loser of that game earned! If YOU were the loser, place a minus in front of YOUR score on YOUR row. That same number (YOUR losing score) is recorded in the winners' box, but WITHOUT the minus.

Check the sheet diagonally for symmetry as per below...

3. Always record the score in two places....on your row, and your opponent's row. Make sure you are recording in the correct column. Your games are shown on the ROW that your name appears on, using the appropriate columns for each different opponent.
4. It is really easy if after each game, the losers score is recorded in the TWO appropriate boxes (yours and your

opponents), and you then just "check off" the loser by writing in the minus sign next to their score.

5. Place a "W" or an "L" in the last box for that match to record who won and who lost that match, (in this case the best 3 of 5) then circle it to make it stand out.

6. Return the final match sheet to the tournament director so he may calculate the winners based on match points, games won, or points earned.
